

# POWERFUL PRINT MANAGEMENT. TWO DEPLOYMENT MODELS.

PaperCut delivers secure, flexible print management that works across all major printer brands. Whether your organization prefers a self-hosted environment or a cloud-native platform, PaperCut provides the tools to control printing, improve security, and reduce waste.

## Advanced Print Management with Full Control

*Best for organizations needing deep customization and enterprise infrastructure control.*

### Key Capabilities

#### **Secure Print Release**

Authenticate users with badge, PIN, or mobile device.

#### **Full Activity Tracking**

Monitor printing, copying, scanning, and fax usage.

#### **Enterprise Integrations**

Connect with identity platforms, directories, and workflows.

#### **Advanced Policies & Automation**

Set rules to reduce waste and control printing behavior.

#### **Flexible Deployment**

Deploy on-premise, private cloud, or partner-hosted environments.

## Cloud-Native Print Management

Best for organizations seeking simple deployment and reduced IT overhead.

### Key Capabilities

#### Fully Hosted Platform

No print servers required.

#### Mobile & BYOD Printing

Print from laptops, tablets, or phones.

#### Automatic Updates

Continuous improvements without manual maintenance.

#### Secure Print Release

Protect documents until the user authenticates at the device.

#### Print Queue Deployment

Automatically installs the right printers and drivers wherever users work.

### Shared Capabilities

Both PaperCut MF and PaperCut Hive deliver the essential tools organizations need to manage printing securely and efficiently.

- secure print release (find-me printing)
- print tracking & reporting
- mobile & byod printing
- cross-platform support (windows, mac, chromebook, ios, android)
- multi-vendor printer compatibility

## Quick Comparison

Feature	PaperCut MF	PaperCut Hive
DEPLOYMENT	Self-Hosted / Private Cloud	Fully Hosted SaaS
PRINT SERVERS	Required	Not Required
CUSTOMIZATION	Extensive Policies & Scripting	Simplified Configuration
UPDATES	Managed by IT	Automatic
IDEAL ENVIRONMENT	Complex Enterprise Networks	Cloud-First Organizations

## One Platform. Two Approaches.

Choose PaperCut MF for maximum customization and infrastructure control.

Choose PaperCut Hive for modern, serverless print management.

***Both deliver secure printing, cost control, and smarter print environments.***
