WHY SCANSHARE NETDOCUMENTS CONNECTOR?

The Scanshare NetDocuments Connector is your ultimate solution for integrating powerful scanning capabilities directly into your NetDocuments workspace.

Simplify your workflows, enhance productivity, and ensure your documents are securely stored and managed with a seamless connection between Scanshare's multifunctional capabilities and the trusted NetDocuments platform.

KEY FEATURES

Direct Integration

Effortlessly scan, upload, and organize documents straight into NetDocuments. Save time with a single, unified process that eliminates the need for manual uploads or intermediary steps.

Advanced Metadata Tagging

Automatically apply relevant metadata during scanning, ensuring precise document categorization and effortless retrieval. The Connector intelligently syncs with your NetDocuments profile requirements.

Flexible Workflow Automation

Create custom workflows tailored to your business processes. Automate tasks like naming, indexing, and routing documents to appropriate folders in NetDocuments.

Secure Document Handling

Ensure data security with robust encryption and direct uploads into NetDocuments' cloud storage. No intermediary storage reduces risk and enhances compliance.

User-Friendly Interface

Intuitive controls and clear navigation make it easy for users of all technical levels to integrate and operate the Scanshare NetDocuments Connector.

Multi-Format Compatibility

Scan and upload documents in various formats, including PDF, TIFF, and DOCX. Built-in OCR ensures searchable text and accessibility.

Scalability for All Businesses

Whether you're a small team or a global enterprise, the Connector adapts to your organization's size and workflow complexity.
